

Patient No. <b>D P1399789</b>		NHS No.		Royal Devon and Exeter NHS Foundation Trust <b>Microbiology Report</b>		Enquiry:(01392) 402977 Result Line:(01392) 402962	
Surname <b>ANTENAT</b>		Date of Birth <b>01/01/01</b>		Consultant/GP <b>DR C. AUCKLAND</b>		GP Address	
First Name <b>ONE</b>		Sex <b>Unknown</b>		Hospital/Ward <b>MICROBIOLOGY DEPA+</b>		<b>EHTMI</b>	
Date & Time Collected <b>06/06/16</b>		Date & Time Reported <b>07/06/16 09:47</b>		Patient Category <b>NHS</b>		Lab Number <b>HR16900007</b>	
Clinical Summary							
<p><u>SEROLOGY</u>  Hepatitis B Surface Antigen... Non-reactive  No evidence of current infection by Hepatitis B virus.</p> <p>HIV Antigen/Antibody..... Non-reactive  HIV antibody/antigen not detected. A negative result 4 weeks post exposure is highly likely to exclude HIV infection. However, after high risk exposures, BASHH recommend further retesting at 3 months.</p> <p>Syphilis IgG/IgM Antibody..... Non-reactive</p>
