Instructions to patient for collection of seminal fluid for post vasectomy analysis

- You should have a toxicity tested specimen container and instruction sheet from your GP or clinician.
- The container and request form provided **MUST** be labelled with your **FULL NAME, DATE OF BIRTH** and the **DATE** and **TIME** of collection. **Unlabelled specimens will not be accepted, so please make sure that the specimen is clearly identified.**
- Sample must be produced **within an hour** of the drop of time. Samples need to be dropped off at the North Devon Pathology Reception by **08:45** to catch the transport which runs between North Devon and Exeter.
- If your doctor has requested that you provide a 1 hour sample then please refer to the appropriate information sheet CYPVND1.
- PLEASE DELIVER THE SPECIMEN AND REQUEST FORM TO:**
Pathology Reception, Level 1,
North Devon District Hospital, Raleigh Park, Barnstaple, EX31 4JB

See website for further information:

exeterlaboratory.com/cellular-pathology/post-vasectomy-semen-analysis

The results of your test will be sent to your clinician.

Directions

- **DIRECTIONS for North Devon Pathology Specimen Reception:**

From the main entrance on Level 2, go past the shop and turn left to take the stairs or the lifts which are in front of you.

Go down to Level 1.

On Level 1

From the stairs turn right and right again at the end of the corridor to PATHOLOGY and specimen reception is there in front of you.

From the lift turn left and then right at the end of the corridor to PATHOLOGY and specimen reception is there in front of you.

Submitting your sample for testing permits the use of any residual sample for quality control purposes.
